

## **Grimas Filmblood, art. 170 - 171 (01-2004)**

<b>Appearance:</b>	A= light or B= dark red fluid
<b>Packaging:</b>	Bottle = polyethylene, transparent white cap = polypropylene, grey  Bottom = polystyrene, grey contents = 100 ml. 500 ml, 1000 ml childproof cap
<b>Ingredients:</b>	<a href="#">See formulation</a>
<b>Toxicology:</b>	<a href="#">See safety declaration</a> ; judged according to guideline EEC/76/768
<b>Dermatology:</b>	<a href="#">See dermatological declaration</a>
<b>Ecology:</b>	No effect if used normally
<b>Bacteriology:</b>	<50 CFU/G <a href="#">yeast and mould</a> Pathogens not present
<b>Usable:</b>	See "Use before" on label <b>24M</b> = months after opening
<b>Storage:</b>	Store cool, dry and dark
<b>Hygiene:</b>	<a href="#">Work hygienically</a>
<b>Limitations:</b>	Toxicologically no limitations
<b>Make-up in the eyes:</b>	Rinse with water
<b>Improper use:</b>	Judged at a norm of <a href="#">eating once</a> the content of the biggest packaging (1000 ml) => no toxicological effect Temporary intestinal problems predictable
<b>Instructions for use:</b>	See product information and conditions of delivery

### **Grimas Filmblood, art. 170 - 171 (01-2004)**

Is safe for human health and has been evaluated at:  
The ingredients used including the presence of impurities.  
Toxicological relevant substances.  
Toxicological profile of the ingredients used, taking  
Into consideration the presence of possible impurities.  
Interaction between the raw materials used.  
Quantities of weight and volume exposed to the consumer.  
Foreseeable [improper use](#) by the consumer-group.

### **Grimas Filmblood, art. 170 - 171 (01-2004)**

<b>INCI</b>	<b>Max %</b>	<b>Function</b>
<a href="#">Aqua, Hydrogenated starch hydrolysate</a>	95	Solvent

The ingredients / colourants used are indicated in their maximum percentage. By clicking on the ingredient name / colour number you will find an explanation about the ingredients / colours.

## CONCLUSIONS

Under the conditions of this test we found no evidence of primary irritation or allergic hypersensitivity.

None of the thirty patch-tests resulted in positive reactions after 24, 48 and 72 hours.

The investigating specialist for dermatology and allergology considers this test-product safe for use.
